Sure. It will need to be by phone as I'm on annual leave that day. I'm copying Nathan so he can find a time for us.

Thanks,

Kathleen,

I have a meeting with USDA this Friday to discuss next steps as we pursue the Administrator's request to place more focus on Ag/PFAS issues.

Can you set up 15 minutes on Friday morning for us to continue this discussion?

Thanks

DDD

Hi David – I have a little more information for you now, and I can follow up again after the meeting takes place.

The Region 7 and 8 Regional Science Liaisons (these folks are regional employees who are liaisons between their region and ORD) organized the meeting at the request of Region 7 management. Rob Weber, who is ORD-OSP staff sitting in Region 7, is covering the meeting for the Region 7 RSL, who recently left for another position.

The April 11 meeting is an initial one to identify an approach for Regions 7 and 8 to engage states in identifying agricultural science needs through their regional science councils. The initial outreach from the regions to the states hasn't happened yet and will likely occur initially at the staff level.

I can give you additional information after the meeting occurs.

Thanks,

Kathleen,

Can I please get a summary of this meeting, including a list of the priorities.

- *Agriculture.* On April 11, Rob Weber (OSP) and Al Basile (Region 8 RSL) will meet with Region 7 and 8 Agriculture advisors to discuss next steps for developing Agriculture science priorities through consultation with State Agriculture Directors.

If Rob has conducted similar meetings with other Regional Ag Advisors I would appreciate info on these meetings as well.

Thanks

DDD
